2d. Keep the children constantly busy. A study program will materially aid in doing this; but a program alone is not sufficient. At each recitation instruct the pupil how to study the suc ceeding lesson, and you will soon dis cover that idleness on their part has not always been a result of unwillingness. While teaching your pupils how 32 to work, imbue them with a love for their studies. The activity of mind and body which has all the while so distressed you, you will now find in a high degree satisfactory.

3d. Study and obey the laws governing physicial exercise. A long lecture chiding pupils for their inattention and stupidity often fails of its desired effect while if some simple movement exercises were for a few moments re sorted to the transformation would be - Mud-and repeat.

To the above injunctions many more might be added, but suffice to say if the school be conducted in such a manner that the children grow mentally, morally and physically, the school-government will be found to give but little difficulty.

"TAFFY"

Since hearing members of the instiute extol the use of "taffy" in the chool room we've been looking in the dictionary for the term, but failed to find that kind of "taffy," Probably because the dictionary does 'call things by their correct names.

Are not teachers walking dictionaries. which are daily examined for the signification of words and acts?

Pupils so trained will deviate considerably from the line of truth to secure the good will of an influential person.

We can handle nitro-glycerine with far greater impunity than we can "TAFFY."

QUERIES.

Why is not a teacher's examination as easy and as lasting as a lawyer's? Seeing that Kansas claims to be a tem-

perance state, we wonder why she does not propound these, or similar questions, to her candidates for teacher's certificates. Are you addicted to the use of alcoholic drisks, narcotic drugs, or tobacoo?
